

Online Banking Enrollment & First-Time Account Setup

This guide walks new Blossom Banking members through enrolling in online banking, setting up their credentials for the first time, and activating security features. It also covers how staff can assist members during the enrollment process.

1. Eligibility Requirements

To enroll in Blossom Banking Online Banking you must:

- Be an existing Blossom Banking member with an active deposit or loan account.
- Have a valid email address to use as your recovery contact.
- Have a U.S. mobile phone number (for SMS MFA and alerts).
- Be at least 13 years of age (accounts for minors require joint enrollment with a guardian).

2. Self-Enrollment Online

Step 1 - Start Enrollment

- Visit blossombanking.com and click 'Enroll in Online Banking'.
- Select 'Personal Account' or 'Business Account'.

Step 2 - Verify Your Identity

- Enter your full legal name as it appears on your account.
- Enter your date of birth.
- Enter the last four digits of your Social Security Number.
- Enter your account number (found on your statement or debit card).
- Click 'Verify'.

Step 3 - Create Credentials

- Choose a unique username (6-30 characters; letters, numbers, underscores, periods).
- Create a strong password meeting Blossom's complexity requirements.
- Confirm the password.

Step 4 - Set Up Security

- Confirm your email address (a verification link is sent).
- Confirm or add your mobile number.
- Choose and answer two security questions.
- Set up MFA: choose SMS, email, or authenticator app.

Step 5 - Agree & Activate

- Review and accept the Online Banking Terms & Conditions.
- Click 'Activate Account'.
- You are logged in and your online banking is ready to use.

3. First Login Checklist

After enrollment, we recommend completing the following on your first login:

- Set up an authenticator app for MFA (more secure than SMS).
- Add a backup email address in Settings > Security.
- Enable transaction alerts for deposits and withdrawals over \$100.
- Review your linked accounts and confirm all are correct.
- Set up a trusted device on your primary computer or phone.

4. Enrollment via Branch or Phone

Members who prefer not to enroll online can do so in person at any branch or over the phone with Member Support.

Branch enrollment:

- Bring a government-issued photo ID and your account information.
- A Blossom associate will verify your identity and initiate enrollment.
- You will receive a temporary one-time password by email or text.
- Log in with the temporary password within 24 hours and complete setup.

Phone enrollment:

- Call 1-800-256-7766 and request online banking enrollment.
- Complete identity verification with the agent.
- Agent creates a temporary login and sends credentials to your email.
- Log in and change your password immediately.

5. Staff: Initiating Enrollment in Admin Portal

- Admin Portal > Member Management > locate member by account number.
- Click 'Enrollment' tab > 'Initiate Online Banking Enrollment'.
- Confirm identity verification is complete and check the confirmation box.
- Choose whether to send credentials by email, SMS, or both.
- Click 'Send Enrollment Invitation'. An email with a one-time setup link is sent.
- The link expires after 48 hours. If unused, re-send from the same panel.

6. Troubleshooting Enrollment Issues

'We cannot verify your identity' error

This usually means one or more of the entered details (name, DOB, SSN last four, account number) does not exactly match our records. Typos and name changes are common causes. Contact Member Support to verify and correct your account details.

Username already taken

Choose a different username. Adding numbers, underscores, or a year of birth often results in an available option. You can also try initials plus a memorable word.

Verification email never arrived

Check spam/junk folders. Add noreply@blossombanking.com to your safe senders list. Return to the enrollment page and click 'Resend Verification Email'. If the email address on file is wrong, contact Member Support to update it.
