

Phone Banking & IVR PIN - Setup and Management

Blossom Banking's automated phone banking system (IVR - Interactive Voice Response) lets members check balances, review transactions, transfer funds, and perform other self-service tasks 24/7 by phone. Access requires a 6-digit Phone Banking PIN. This document covers PIN creation, reset, and staff-assisted procedures.

1. What Is Phone Banking?

Phone Banking is our automated telephone service. Call 1-800-256-7766 and follow the IVR prompts to access your accounts without speaking to a live agent. Available 24 hours a day, 7 days a week, including holidays.

Available via Phone Banking IVR:

- Account balance inquiry.
- Last 10 transactions.
- Transfer funds between Blossom accounts.
- Loan payment (checking or savings source).
- Order a replacement debit card.
- Report a lost or stolen card.
- Activate a new debit card.
- Change your Phone Banking PIN.

Note: More complex requests (wire transfers, account opening, loan applications) require speaking with a live agent by saying 'Representative' or pressing 0 at any prompt.

2. Setting Up Your Phone Banking PIN

New online banking members can set up a Phone Banking PIN via the Online Banking portal or by calling Member Support.

Via Online Banking:

- Log in and navigate to Settings > Security > Phone Banking PIN.
- Click 'Create Phone Banking PIN'.
- Enter a 6-digit PIN. Avoid sequential numbers (123456) or repeated digits (111111).
- Confirm the PIN and click 'Save'.

Via Phone (first-time setup):

- Call 1-800-256-7766.
- When prompted, say 'Set up phone banking' or press 3.
- Enter your account number when prompted.
- Verify with the last four digits of your SSN.
- Create and confirm your 6-digit PIN.

3. Phone Banking PIN Requirements

BLOSSOM BANKING · Internal Knowledge Base

- Exactly 6 digits (numbers only).
- No sequential digits (e.g., 123456 or 654321 are not allowed).
- No six identical digits (e.g., 111111 or 999999 are not allowed).
- Cannot be your date of birth (MMDDYY or DDMMYY formats).
- Cannot match the last 4 digits of your account number repeated.
- Cannot reuse your last 5 Phone Banking PINs.

4. Resetting a Forgotten Phone Banking PIN

Via Online Banking (easiest):

- Log in to Online Banking.
- Navigate to Settings > Security > Phone Banking PIN.
- Click 'Reset PIN', enter a new 6-digit PIN, confirm, and save.
- The new PIN is active immediately.

Via IVR (self-service):

- Call 1-800-256-7766.
- At the PIN prompt, press * to access the 'Forgot PIN' option.
- Verify your identity using: account number + last four SSN digits + date of birth.
- Create a new PIN when prompted.

Via Member Support (agent-assisted):

- Call 1-800-256-7766 and say 'Representative' to reach a live agent.
- Complete identity verification.
- Agent sends a PIN reset link to your registered email.
- Click the link and set a new PIN (same complexity requirements apply).

5. Locking and Unlocking the Phone Banking PIN

The Phone Banking PIN is locked after 5 consecutive failed attempts. Unlike the online banking account lock, a Phone Banking PIN lock does not lock online access.

- PIN locked: online banking remains accessible.
- Self-service unlock: log in to Online Banking > Settings > Security > Phone Banking PIN > Unlock.
- Staff unlock: Admin Portal > Member > Security > Phone Banking > 'Unlock PIN'.
- A hard-lock (after 3 soft locks) requires staff authorization.

6. Staff: Phone Banking Management in Admin Portal

- Admin Portal > Member Management > Member record > Security tab > Phone Banking.
- View PIN status: Active, Locked (soft), or Locked (hard).
- Reset PIN: sends a reset link to the member's email.
- Unlock: click 'Unlock Phone Banking PIN' - requires agent confirmation.
- Disable: temporarily disables IVR access (for fraud holds or member request).
- Enable: re-enables a previously disabled IVR access.
- All actions are recorded in the member's security audit log.

7. Common Phone Banking Issues

'Your PIN does not match our records'

Verify you are entering the PIN numerically (no letters). If you recently changed your PIN online, the IVR update may take up to 5 minutes. Try again after 5 minutes or reset your PIN via Online Banking.

IVR not accepting my account number

Ensure you are entering your full account number without dashes or spaces. If calling from a phone with number-masking or VoIP, tones may be unclear - try calling from a landline or a different phone.
